

# The Arts 3-6

## Learning Intention:

To create a background to use during Web Ex calls, using whatever material that is available to you

## Success Criteria:

I am successful when I can use the element of form to create a 3D structure and colour to create visual interest.

## Materials:

Cardboard box, paper, pencils, paint (if available), glue and any other material that you choose to use.

## Steps needed to complete this task.

1. Find a box that can be used as a background. (cereal boxes, fruit boxes, package boxes, etc)
2. Create an interesting background using colour. You can paint, collage, create 3D art with branches/leaves, straws, etc.
3. Make sure you are happy with your composition (your layout) and glue them down onto your cardboard.
4. Stand in front of your background and take a photo. (Look at my 2 examples below).
5. Email it to [Gulshen.karaca@edumail.vic.gov.au](mailto:Gulshen.karaca@edumail.vic.gov.au)

If you have any further questions please contact me via email, teams or Xuno.

Web Ex timetable  
Grade 3/4 Tuesday 10:30  
Grade 5 10:30 Wednesday  
Grade 6 12:30  
See you then 😊
